NUMBER 40

IRRIGATION DISTRICT FOR EAST KELOWNA

Property Owners Take Steps to Conserve and Extend Water Supply

Property owners on the K. L. O. Bench are working out a scheme to incorporate an Irrigation District for the purpose of acquiring the Canyon Creek Irrigation Co. and South Kelowna Land Co. irrigation systems, with a view to putting the systems in thorough repair and to improve and extend the water storage. A price has been stated by the companies to cover the combined systems, and the Minister of Lands has advised the promoters of the scheme that the Government will give any reasonable financial assistance to complete the project, which means that the necessary funds for purchase and extension will be advanced subject to repayment over a term of years. It is estimated that the purchase and the work to be carried out will involve a total expenditure of \$650,000.

The first work to be undertaken will be an enlargement of the storage area on Hydraulic Creek, at McCulloch. Two diversion ditches will also be constructed to convey water from the headwaters of Canyon Creek to the Hydraulic reservoir. When, owing to increasing demands, the supply of water becomes inadequate, a ditch will be constructed to carry water from Mission Creek to Hydraulic, and, if required, a storage area will also be created at the head of Mission Creek. The total quantity of land which can be irrigated is placed at 7,000 acres, of which 2,000 acres is now supplied with water.

The name proposed for the new district is "The South-East Kelowna Irrigation District," and the territory embraced will include all irrigable land on the benches south of Mission Creek as far as Sawmill Creek. Incorporation will be effected as soon as possible.

It is not intended to take over distribution of water this year, but to leave the work in the hands of the companies. Construction, however, will be proceeded with this summer, if the project materializes.

At a public meeting held in the East Kelowna School on April 1, at which about five-sixths of the property owners were present, only one dissenting vote was recorded against the scheme. The following committee was appointed to handle the details: Messrs. John E. Reekie, chairman; R. M. Hart, secretary; R. M. Grogan, W. Marshall, Felix Casorso, Wiggins and Commander Stirling.

It is the general opinion that this project, if carried through, will permanently remove all doubts and fears as to the adequacy of the K. L. O. Bench water supply, and its success will have a marked effect upon the development and prosperity of the rich district concerned.

OBITUARY

The Late Mr. C. R. Stewart

Old-timers will regret to learn of the death of Mr. Charles R. Stewart, who resided here between the years 1907 and 1912. He owned, an orchard property about two miles south-east of Kelowna, which he sold, on leaving here, to Mr. Fetherstonhaugh. After about three years' illness, he passed away at Stellarton, N. S., on April 3, aged 65 years.

Mr. Stewart was a native of Durham, Pictou County, N. S. While a young man of 24, he moved to Manitoba and farmed on the prairies for twenty-eight years. He came to Kelowna about 1907, and returned to Nova Scotia some seven or eight years ago.

His only son, Creighton, was killed in action two years ago, and the bereavement told heavily upon Mr. Stewart. His wife and two daughters, Kathleen and Bessie, survive him.

Mr. Stewart was highly respected wherever he made his abode, and he was actively interested in social and religious work. He was buried at Durham, as he had wished, where the cemetery lies beside his old school playground.

ARABS PROVIDE A TICKLISH PROBLEM

LONDON, April 22.—A question of the first importance before the Allies at San Remo and one fraught with real danger is the proposal to form a sort of Arab conclave to serve as a buffer against Turkey and Russia. Col. Arthur Lynch, in a special dispatch, says: "I am informed that any attempt to cut off the Arabs from the sea is certain to meet with fierce opposition. The danger is greater than appears. The Arabs have a large, well disciplined army, while the French have only a small force. The Arabs deny the right of Britain to help France with the forces now in those territories."

RECORD PURSE FOR LIGHTWEIGHT SCRAPPERS

LOS ANGELES, April 22.—Benny Leonard's manager claims that the champion has been offered a purse of \$100,000 for three eight-round bouts in Jersey City. This is said to be the world's record remuneration in lightweight class. Leonard may not accept, as he is too busy with motion picture contracts.

MARRIAGE

Tutt-Hererson

The Catholic Church was the scene of a very pretty wedding on Monday morning, when Mr. Duncan Tutt led to the altar Miss Nellie Hererson, eldest daughter of Mr. Michael Hererson. The bride was attired in white satin with a bridal wreath and veil, and was attended by Miss Helen Brunette, who wore a pale pink voile dress and black picture hat. Mr. Wm. Hererson supported the groom.

After the ceremony, the party motored to Ellison where a sumptuous breakfast was awaiting them at the home of the bride's parents. Only the very near relatives and friends of the young couple were present. Many useful and costly presents showed the esteem in which the bride pair are held.

Mr. and Mrs. Tutt will take up their residence in Ellison district.

"THE SLEEPING BEAUTY" DRAWS CAPACITY HOUSE

Clever Presentation by Children, of Pantomime, in Empress Theatre

Judged by the attendance and the reception accorded the presentation of "The Sleeping Beauty" and the musical recital by Mrs. Ambler's pupils, those responsible for the entertainment given in the Empress Theatre Tuesday night, must be highly gratified. No more fastidious or receptive audience ever gathered in assembly in Kelowna; they went to be pleased and entertained—and their desire was fulfilled. Too much praise cannot be rendered those upon whom fell the arduous task of training the children; the dancing, particularly at times almost equalling that given by the best paid artists.

The programme opened sharp on time, Mrs. Trenwith appearing in the opening number in a vocal solo, her splendid voice as usual drawing appreciative applause, though the effect was somewhat marred by late-comers in getting seated. Following in quick succession came vocal and piano solos, Miss Amy Fleming and Mr. J. Bamling in songs and Mrs. DeMara in a monologue being particularly good. Frances Treadgold, Mr. Henry Tutt, Margaret Fumerton, Jean Morrison and Miss V. Tutt also contributed their share to the first part of the entertainment, the musical recital.

"The Sleeping Beauty"

The feature of the evening, a story of the fairy, presented by Mrs. P. C. A. Anderson and Mrs. Herga Ambler, was excellently rendered, from the opening scene to the final curtain there was never a slack moment nor the least hesitation on the part of the children in performing the parts accorded to them. The scenes of the story are laid in Kelowna, and, while no very intricate plot was apparent, the play gave opportunity for the appearance at brief intervals, in song, dance and monologue, of the youthful performers. Frank Fumerton, in the heavy part of King of Kelowna (a Scotchman, of course) appeared quite happy in his royal robes, while Maud Kincaid as Queen, and Bessie Hawes as their daughter, gave evidence of royal fairy birth throughout. The comedy in the play was supplied by Biddy, the Royal Washerwoman, taken by Harold Brown. Margaret Fumerton as the Wicked Fairy, Mongolia, and Patsy Anderson as Puck, were the centre of action in the story continually. Jack Barrett as The Cat, was amusing. Other parts were taken by Hugh McKenzie, Dorothy Armstrong, Donald Poole, Hazel Purvis and Muriel Dillon, who played the part of Prince Charming.

Patsy Anderson was, of course, the artist supreme in the dancing, though Margaret Fumerton gave evidence of careful training and a keen interest in her part; the Gnome dance appealed to the audience, the near-infants appearing to enjoy hugely the rather intricate steps required. Too much space would be required to make detailed mention of each performer, but, taking the play as a whole, it was cleverly performed, and seemed as fully enjoyed by the performers as by the audience.

The following participated in the dances:

Gnome dance—Dick and John Benmore, Jack and Florence Barrett, Mary and Alan Poole, Dorothy Armstrong.

Kiltie attendants in Highland Fling—Ada and Madeline Poole and Patsy Anderson.

Fairies in Mendelssohn's Spring Song—Gwelda Symonds, Winnie Roberts, Frances Treadgold, Patsy Anderson, Annie Allan, Clara Roberts.

Small Fairies in Glow Worm—Evelyn and Gertrude MacDonald, Clara Roberts and Patsy Anderson.

Solo dance—Margaret Fumerton, "Inspiration."

Monologue by Maud Kincaid, "Arabs."

Gypsy dance—Winnie and Clara Roberts, Annie Allen and Patsy Anderson.

Toe dance—"A Fantasy," by Patsy Anderson.

Duo toe dance—"Lovers' Lane," by Margaret Fumerton and Patsy Anderson.

Irish Washerwoman dance—Winnie Roberts, Clara Roberts and Patsy Anderson.

Guests, attendants and populace—Grace McCarthy, Thelma Dillon, Miriam Small, Lilly Neish, Margaret Sutherland, Ola Anderson and Jean Rowcliffe.

Thanks to the generosity of the organisers of the pantomime, the net proceeds, amounting to approximately \$100, will go to the Kelowna Hospital.

MEETING OF BOARD OF TRADE LASTS ONE HOUR

PROCEEDINGS BRIEF AND BUSINESSLIKE — WOODS LAKE WANTS CLOSER RELATIONS WITH KELOWNA

Despite the counter-attraction of "The Sleeping Beauty" pantomime, some twenty members attended the monthly meeting of the Board of Trade on Tuesday night, and, in refreshing contrast to what has been the rule recently, the proceedings were brief and businesslike. There was an absence of protracted discussion on trivialities and stale subjects, and, although ample time was given for the discussion of new business, the Board was able to adjourn at 9:15 p.m. instead of the customary hour heretofore of 10:45. President Rogers was in the chair.

Referring to certain suggestions put forward by Mr. R. E. Denison for expedition of the business of the Board, the President stated that much time had been wasted in lengthy discussion, and he frankly said that, especially since he had taken office, the meetings had been somewhat of a nightmare to him. He would endeavor to curb discussion to reasonable lengths and to facilitate the transaction of business.

As to resolutions to be submitted to the Provincial Government being also sent to the defeated Liberal candidate as well as the local member, he agreed, but it would not be of much service to send them to the Liberal Association, which was usually more or less defunct between elections.

Dr. J. E. Wright, Messrs. A. E. Dark, J. B. Whitehead and J. McMillan, who had been recommended for membership by the Council, were duly elected, on motion of Messrs. N. Gregory and C. H. Jackson.

A letter was read from Senator Bostock in regard to a federal building for Kelowna, stating that, while he was willing to help all in his power to obtain it, he did not think there was the least chance of the government being able to undertake the work at the present time owing to the need of retrenchment and the heavy burdens imposed on the country by war expenditure.

Although this letter was not very encouraging, said Mr. Rogers, it was reported that Calgary was getting a \$5,000,000 building, and that Merritt and Penticton were also to have federal buildings, hence the Council thought the matter of a building for Kelowna should not be dropped and it was still being pressed upon the Public Works Department.

In this connection, Mr. J. B. Knowles reported, on behalf of the Publicity Committee, that he had given instructions to have a photograph of the present Post Office premises. He had nothing definite to report as to a correspondence for the "Vancouver Province," but he hoped to obtain a suitable man within the next few days.

No other reports from committees being submitted, new business was next taken up.

The President stated he had met Major Smith, who was selling stock for the Okanagan Telephone Co., for the purpose of raising sufficient funds to carry out extensions of the system. Major Smith was anxious to sell a sufficiently large block of shares, to one individual so as to have some one eligible for election as a director of the company to represent the valley, as the present directorate was composed of Coast people, and it was desirable to give the Board more of a local complexion.

Mr. Knowles said he had also met Major Smith, who was disappointed with the response made by local investors, but it was difficult to see what the Board could do to arouse interest in the purchase of stock.

At the request of the President, Mr. A. A. Ballard read a letter from Mr. M. J. Crehan in reference to the financing of a hotel project in Kelowna. Mr. Crehan stated that if \$50,000 could be raised locally, there would be no difficulty in obtaining \$150,000 in Vancouver. Without exact knowledge of local building costs, it was possible only to give a very rough approximate estimate of

the outlay necessary to erect a thoroughly modern 60-room hotel, but, built of mill construction with brick and tile walls, it might be placed at \$135,000, exclusive of furniture.

Mr. W. A. Pitcairn thought this figure seemed high for a hotel of the size indicated. Some years ago, the cost of a first-class hotel building had been estimated at \$1,000 per room, and, while building costs had advanced greatly since then, the figure now quoted was considerably over \$2,000 per room, and seemed excessive.

Ald. Rattenbury explained the position of the City Council in favor of the donation of a free site in the City Park, while opposed to squaring out the site on the Abbott Street frontage of the Park which had been recommended by the special committee appointed by the Board.

Mr. Pitcairn presumed that if the Council was willing to give a free site in the Park, that body would also be agreeable to give exemption from taxes and free water and light for a term of years, should the hotel be erected on a suitable site elsewhere.

Mr. Rattenbury replied that the Council had considered such an alternative, but was not in favor of it.

Messrs. Rees and Rattenbury moved: That the matter of financing a hotel scheme be left in the hands of the Executive with power to appoint a committee to deal with the matter as they may see fit. Carried.

Mr. Jackson enquired if there was any fresh information in regard to the construction of the C. N. R., to which the President replied that nothing further had been learned as to the date of completion.

Mr. W. Price stated that he had attended recently a meeting of the United Farmers of B. C. at Woods Lake, at which the telephone service was discussed. Several of the members expressed a desire to be linked up with Kelowna instead of Vernon, and they asked him to bring the matter before the Board of Trade.

In order to secure the assistance of that body to have the change made. At present, in order to communicate with Kelowna, it was necessary to do so through the Vernon central. The Woods Lake people felt that Kelowna was rather indifferent to them and neglected them, and they were anxious to establish closer relations.

Mr. Knowles was strongly in favor of doing everything possible to encourage closer communication with the Woods Lake portion of the valley, which, with the advent of the railway, would grow rapidly.

The Secretary offered the suggestion that the people of Woods Lake should get up a petition to the telephone company for connection with the Kelowna exchange.

Mr. Price said the people had done so already, but the officials seemed to want to put in a local exchange there.

After further discussion, it was finally decided that Messrs. Knowles and Rattenbury be delegated to bring the matter before Mr. Godfrey, general manager of the Okanagan Telephone Co., on the occasion of his next visit here, and to write the Woods Lake Local of the United Farmers, stating that the Board was keenly interested in promoting closer relations between the two communities and was taking action to obtain the telephone facilities desired.

Mr. W. Crawford called attention to the weather reports published in the "Province" from different places, including Penticton. Kelowna was not included, and he thought this omission should be rectified and a report supplied from here, as it was good advertising of the climate.

Mr. R. E. Denison said that, when Penticton obtained a meteorological observation station, he brought the matter before the Board but nothing had been done. His brother was in charge of this department at Victoria, and he would take the matter

(Continued on Page 2)

CONDENSED FLASHES OF WORLD NEWS

BOSTON, April 22.—Thos. W. Lawson, of "Frenzied Finance" fame, paid a fine here yesterday of \$1,000 for violation of the state law in regard to the sale of stocks.

LONDON, April 22.—Rt. Hon. Walter Long admitted in the House of Commons yesterday that Great Britain was planning to sell some warships to foreign countries, but he refused to give particulars.

NEWARK, N. J., April 22.—The chairman of the New Jersey State Committee for Irish Independence has wired Washington demanding that Sir Auckland Geddes be not recognized as ambassador to the United States, because of his suggestion "hands off Ireland." Appropriately enough, the chairman's name is Kinkhead.

WASHINGTON, April 22.—According to General Alvarado, President Carranza is attempting to make

peace with the Sonora revolutionary forces. He is said to fear that the rebels are too strong for him to resist the movement successfully.

DUBLIN, April 22.—Another crisis in the Irish problem appears to be at hand. Advance parties of cavalry have arrived in Dublin during the past few days, and the main body will be here soon. There are warships in Dublin Bay and the arrival of transports with destroyers is reported. A new hunger strike has been instituted in Mountjoy Prison. Six men have been on such a strike for the past seven days, and five of them have been removed to hospital in a condition said to be serious.

TORONTO, April 22.—The Province of Ontario has sold a \$7,000,000 bond issue to a Canadian-American syndicate at 91.63. Payment is to be made in New York funds which, at the present rate of exchange, will bring the proceeds up to a price of 99.88.

CAMDEN, N. J., April 22.—Jimmy Wilde knocked out "Batling" Murray here last night in tight rounds.

ADDITIONAL LOCALS

Mr. J. Porter went to Vancouver this morning.

Mr. T. A. Woods left today for a business trip to Vancouver.

Mr. D. Maguire left today for a business trip to Regina.

Mrs. Baumbach was a passenger to Kansas City this morning.

The Fire Brigade had a midnight run on Tuesday to the brick yard, where a shed had caught fire. The chemical got into soft ground between Richter and Ellis Streets, and was unable to reach the scene, but fortunately the damage was comparatively slight. In turning in the alarm, the Fire Hall was phoned direct, instead of Central being notified, and considerable delay ensued in giving the siren signal, the Brigade being on the way to the fire before the whistle blew.

K. A. A. C. PETITIONING FOR NEW PLAY GROUNDS

Friday Night's Meeting Resents Apathy of City Council and Calls for Support of the Public

Friday night's meeting of the K. A. A. C. was briefer than usual but more businesslike and cut in its handling of matters up for discussion. Dr. Wright was voted to the chair in the absence of the president, L. V. Rogers, who was detained by another meeting but arrived in time to handle the most important business to be dealt with. Several committees made report of satisfactory progress, and the managers of the various teams reported everything going along nicely. The meeting gave the president and secretary authority to endorse any requisitions made by the managers, and the latter were also instructed to appoint two umpires or referees, as called for by the league rules.

The committee appointed to work in conjunction with other organizations of the city, in connection with a general Sports Day on May 24, reported everything going along satisfactorily and prospects for a great day of sports are excellent. The committees have not as yet made final arrangements, but it is probable there will be a baseball game at 11 o'clock with lacrosse at 5 and football in the evening. Sandwiched in between will be the track events and freemen's competitions. The catering is to be left entirely in the hands of local women's organizations.

The chief topic of discussion was the threadbare one of grounds—for years the same story each spring—hopes raised only to be dashed down; promises and good wishes but never a real playing ground for the athletic teams of Kelowna. The meeting felt that as this matter vitally affected the public, an opportunity would be given them to show their interest, and a petition has been circulating around the city this week, copies being at convenient stores, for signatures. The signed request for consideration will be presented to the City Council at their meeting on Monday night. Appended is a copy of the petition.

THE PETITION

To His Worship the Mayor and Aldermen of the City of Kelowna:

In the interests of local amateur athletics, we, the undersigned respectfully urge you to take immediate steps to put the new Recreation Grounds in the City Park in shape for use this season, which opens on the 24th of May next.

TENSE SITUATION AT SAN REMO COUNCIL

SAN REMO, April 22.—With France determined to use force to the uttermost to secure that Germany shall play a game as laid down in the Peace Treaty, and with Britain urging economic pressure only, a tense situation is developing in the peace councils here. The balance will turn one way or the other within three days, with the chances in favor of France going ahead alone. Coal is the crux of the situation. France must have it, and, in the event of a split and England saying: "No more coal," France will answer: "We should worry; we'll go to Ruhr and take it."

Ostensibly the Council is debating many peace problems, but Italy has established a censorship over correspondents' dispatches, and some have already been held up for hours because they indicate which way the conference is veering.

As at Paris, where President Wilson failed to lead the world to a new dawn, so Lloyd George, Millerand and Nitti seem unable to rise one above another, while things drift more and more definitely into the power of the "bow-legged cavalrman" who stalks about San Remo and whose name is Foch. The British representatives admit the gravity of the situation and their inability to cope with it. Italy's position is not quite clear. Her need of coal is greater even than that of France. Premier Nitti is friendly to Lloyd George, but the new element of censorship is creating suspicion amongst the correspondents.

The session of the Provincial Legislature having concluded on Saturday last, Mr. J. W. Jones, M.L.A., has returned to Kelowna, glad to be back after an absence of three months.

THE COUNCIL OF THE BOARD OF TRADE

Minutes of Proceedings of Meeting on Friday, April 16

In order to make the report of the monthly meeting of the Board of Trade more intelligible to the general public, permission has been granted by the executive of the Board to publish the minutes of the Council, which now shoulders a considerable amount of the routine work and takes action on matters which cannot be laid over until the monthly meeting.

Minutes of a meeting of the Council of the Kelowna Board of Trade held in the Secretary's office on Friday, April 16, at 7:30 p.m.

Present: Messrs. Rogers, Stirling, Rattenbury, Ballard, Knowles, Rees, Elliott and Buckland.

The minutes of the last meeting were read and adopted.

Mr. R. E. Denison wrote suggesting:

(1) That the Council adopt a rule fixing the time allowed at the general meeting of the Board for the discussion of any subject.

(2) That all resolutions to be referred to the local Government be hereafter sent also to the local Liberal Association and to the defeated Liberal candidate as well as to the local member.

(3) That a correspondent be appointed for the Vancouver Province.

These suggestions were considered by the Council and dealt with as follows: The first was left in the hands of the chairman to deal with according to the spirit of the suggestion; the second was accepted in so far as reference to the defeated candidate is concerned, and the last was referred to the Publicity Committee.

Applications for membership were received from J. B. Whitehead, Dr. Wright, J. McMillan and A. E. Dark.

It was moved by Mr. Ballard, seconded by Mr. Elliott: "That the above applications be recommended to the Board for acceptance." Carried.

Letters were received from Senator Bostock and the Postmaster-General acknowledging the receipt of the resolution dealing with the petition of the Board for a new Post Office. It was decided to obtain photographs of the Post Office with a plan of the interior and to send them to the Department of Public Works at Ottawa, also to Mr. Burrell and Senator Bostock.

The Secretary reported that he had interviewed Mr. B. E. Paterson, of the S. C. R., Ottawa, who happened to be passing through Kelowna a couple of weeks ago. Mr. Paterson informed him that he already had plans of the Indian Reservations and all information necessary, and that he would not need any further particulars. The Secretary had, therefore, not written to Mr. Megraw, as instructed by the Board at its last meeting.

The Council accepted the Secretary's explanation, which he was instructed to read at the meeting of the Board.

Mr. Elliott discussed the difficulty which soldiers who are receiving loans under the Soldier Settlement Board experience in obtaining their loans after their applications are accepted. The Secretary was instructed to write the Vernon Branch of the Board, outlining these difficulties and enquiring as to the prospects for improvement.

Mr. Rattenbury reported for the Hotel Committee that the City Council is not in favor of granting any land adjoining the site recommended by the Committee for hotel purposes.

The report of the Committee was received and the Committee discharged.

Mr. Ballard reported that he had received a letter from Mr. M. J. Crehan, of Vancouver, saying that, after consultation with financial houses in Vancouver, he was able to state that if support to the extent of \$50,000 could be obtained in Kelowna to a hotel project, it would be quite feasible to raise an additional \$150,000 in Vancouver. It was decided to go further into the matter at the general meeting.

The Secretary was instructed to write to Mr. Roberts, of the Imperial Veterans Association, asking what progress is being made in securing the location in Kelowna of an office of the Association.

The meeting then adjourned.

There was another large exodus of Chinese this morning, bound for employment on the C. P. R.

Mr. and Mrs. Bernard Lemon returned to the city on Friday, after a sojourn of two weeks in Penticton.

Arrangements for the 24th of May celebration are assuming definite form, and a big day's sport is anticipated.

For the benefit of the Hospital, Mr. C. H. Taylor delivered an interesting illustrated lecture in Wesley Hall, on Monday night, on "Life and Scenery in India," but was rewarded with a very poor turnout of the public, less than fifty being present.

PARIS, April 22.—The charges of high treason and supplying intelligence to the enemy laid against M. Caillaux have been eliminated by the High Court of the Senate in session here today. This precludes the possibility of the death penalty being inflicted on the ex-Premier.

Orchard Run

A startling example of the ruin that the mail-order habit has brought to some of the small towns in the East was made manifest at a recent enquiry conducted at Hamilton, Ont., by the Board of Commerce in regard to the operations of the wholesale grocery trade as affecting the general consumer. It was stated in evidence that the population of Orangeville, Ont., has decreased from 5,000 to 2,800, owing chiefly to decline of the retail business of the town through people sending to the large department stores in the big cities for the bulk of their requirements.

The petty savings that may be made by sending away for goods cannot compensate in the long run for the irretrievable damage done to the local town as a community centre. A prosperous town in the centre of a thriving agricultural district adds to the pleasures and comforts of existence of all concerned, and if people in town and country alike would combine to build up local trade, all sorts of conveniences would gradually add themselves which, in a dead town, are not to be found. Volume of trade has a material bearing on the question of good churches under the pastorate of intellectual men, good schools under the direction of the best teachers, and opportunities for wholesome recreation which are an absolute necessity if the younger generation is to be retained on the farm and kept content instead of yearning for the "white lights," the garish display and feverish life of the great cities.

Can any farming district be pictured as enjoying lasting prosperity in which the mail-order habit has developed to such an extent as to destroy the trade of its town centre? Surely town and country are interdependent, and if poor trade leads to vacant buildings, unpaid taxes, decrepit sidewalks and an inferior standard of business and professional men, there is bound to be a reaction injurious to the rural community. The young men of today will not stay in a district where there is nothing but drudgery, no sport or amusement to sweeten the intervals from toil, and shortage of labor would soon spell an end to profit in many branches of agriculture.

Less selfishness and a wider outlook in regard to the common interests of town and country are urgent needs of the hour, and there should be cultivation of a spirit of district patriotism which would regard as a stab to the prosperity of the whole community every dollar sent to build up acre upon acre of floor space in the departmental stores of the great cities hundreds or thousands of miles away.

In the probable absence of any provincial legislation for daylight saving, the Kamloops Retail Merchants Association is making an effort to secure the benefits of such a measure by circulation of a petition amongst the business men of that city, asking that the stores close at 5 o'clock five days per week, beginning on May 15 and continuing until September 15. The "Standard-Sentinel" suggests that the proposal be supplemented by all workers who labor an eight-hour day entering into an agreement to commence work at 7 a.m. and to quit at 4 p.m., which would give them an hour to shop after work, and would leave all free for a long evening at garden work or for recreation.

Such an arrangement should be quite workable in industrial centres, but it is not likely to meet with any more favor in agricultural districts than the orthodox plan of setting forward the clock one hour. Trail, whose population of 4,000 people is practically dependent upon one huge industry, the smelter of the Consolidated Mining and Smelting Company, has chosen the latter method, and daylight saving is now in effect there, regardless of the fact that the C.P.R. adheres to its own time.

**MONTHLY MEETING
LASTS ONE HOUR**

(Continued from page 1)

up-with him, if the Board so desired. By applause, the members showed their approval of Mr. Denison's offer. Enquiry by Mr. Rees as to the fate of a resolution regarding the cutting of timber on the water-sheds revealed that it had been remitted back to the Resolutions Committee for re-

drafting, and there was no member of the committee present to report whether it had been forwarded to Victoria. If it has not, the matter will be attended to forthwith.

Mr. Gregory asked if there was any word of the proposed establishment of an office of the Imperial Veterans organization in Kelowna, to which the President replied that, on the authority of Mr. Rattenbury, it was reported that the office was being opened at Vernon instead of here.

Mr. Price reported the existence of a nuisance and eyesore on the Vernon road, near the Five Bridges, in the shape of a very large box filled with rusty tin cans and other unsightly and offensive rubbish, which should be removed and action taken to stop people from dumping such material beside the public highway.

Mr. Denison also reported a case of rubbish being dumped near Bankhead.

After various suggestions had been offered as to the proper action to take, it was moved by Mr. Pitcairn, seconded by Mr. Rattenbury: That the Secretary see the Provincial Constable and ascertain the law in regard to dumping rubbish on the public roads, and that he report the two cases brought to the attention of the Board.

While on a recent visit to Vancouver Island, stated Mr. Pitcairn, he had seen a branch of the C. N. R. about 70 miles long, running up the Koksilah River, all complete and ready for traffic but not one train was being run over it. The people of the Okanagan had been told by the government that lack of steel was the chief drawback to early completion of the Kamloops-Kelowna line, yet here was a case where the steel had been laid but not used and it was evident that this Vancouver Island branch was not urgently needed. Lack of steel could no longer be pleaded as an excuse, and the rails should be taken up and used on the railway through the Okanagan, completion of which was of prime importance. He had travelled from the Coast with Mr. Wollaston, who told him that the excuse offered for delay was lack of labor, owing to which not more than two months' work could be carried out this year. It was thus evident that two entirely different excuses were used as was seen fit, and in order to have some one who could be approached of local conditions, he would like to see a British Columbia man appointed to the directorate of the C. N. R.

It was moved by Mr. Rees, seconded by Mr. Ballard: That the Secretary write to Senator Bostock, enquiring when a Board of Directors for the C. N. R. will be constituted, suggesting that British Columbia be allotted a representative on the Board, when formed, and asking if the Senator had any information as to the construction of the Kamloops-Kelowna line. Carried.

Mr. DeHart suggested that a similar letter be sent to Hon. Martin Burrell.

Mr. Pitcairn wanted an expression of opinion by the members on this latter suggestion. The question was put to the vote and declared by the chairman to be carried "almost" unanimously.

In moving that adjournment be made, Mr. Denison congratulated the President upon the rapid manner in which he had conducted the business of the meeting.

DOMINION CONVENTION OF THE G. W. V. A.

Okanagan Delegate Gives Report on
Proceedings to Local Association

On Monday night, Lieut.-Col. Edgett, who represented the Okanagan and Similkameen districts at the Dominion Convention of the G. W. V. A., held recently at Montreal, addressed a large and enthusiastic meeting at the Club.

Col. Edgett prefaced his remarks by congratulating the Kelowna members on their splendid quarters and furniture. The first thing that had impressed him at Montreal was the earnest spirit in which the delegates got down to work. The work was a great physical strain, so much so that several of the delegates had to go to hospital. In meeting representatives from all over Canada, one's vision was broadened and there was an evident desire on the part of every one to see the other fellow's viewpoint.

The first resolution brought up was in regard to pensions. The principal changes recommended were: \$1 for every one per cent of disability, thus giving a totally disabled man a pension of \$100 per month, and a pension to a widow or dependent mother without children of \$75 per month. The Government was also asked to pension the dependents of men who may die within the next ten years. It was justly claimed that there are many men who, while not pensioners, have returned with much lower vitality, and distress is already occurring amongst women who have lost their husbands since their discharge from the army.

The next subject was re-establishment. The Convention was very united on the best means to accomplish this, viz., by a cash bonus based on an additional \$1 per day for every man who saw service on a belligerent front, and a proportionate bonus to those who served in Canada or England. The committee appointed to interview the Government pointed out that only a small percentage had been able to avail themselves of existing re-establishment measures, that the ex-soldier could more effectually re-establish himself by means of the cash bonus, and that it would be more economical than setting up government machinery to enquire into the need of individual cases. The committee added that the necessary money could be obtained by taxing war profits, and that in 1917 Sir Robert Borden had promised to conscript wealth as well as men. Sir George Foster admitted that huge fortunes had been made during the war, but the difficulty was to get at them. He stated that the matter would be dealt with finally before the House prorogued.

At the Convention, man after man stated the difficulties facing their re-establishment. Debts and taxes had accumulated, business rivals had taken their clients, farms had run down, the wage earner found his family on his return often heavily in debt, and it would take a long time for the average man who went overseas to reach the position of those who stayed at home. It was pointed out further that, while nearly everyone in Canada received increased wages, the soldiers' pay remained at \$1.10 per day.

It was estimated that it will cost

\$230,000,000 to meet the request of an allowance of \$1 per day extra, and it was considered that, while individuals who made money out of the soldiers' sacrifice will be hit, yet on the whole, the country will benefit. Col. Edgett concluded an address which was followed with close interest and keen appreciation by the audience, by reading a "Declaration of Principles" adopted at the Convention, which will be printed in full in our next issue.

Mr. and Mrs. W. Alcock, who recently sold their property in the Rutland district, where they had resided for a number of years, left yesterday afternoon for Victoria, and may take up residence permanently at the Coast.

CO-OPERATION WITH THE OCCIDENTAL FRUIT CO., LTD.

HAS BROUGHT
higher prices for the Growers' Produce.
HAS ENABLED THEM
to dispose of all their by-products,
TO PROCURE THEIR
Grocery Supplies, Flour and Feed at the lowest
prices, thus effecting enormous saving on year's

New 1920 Hupmobile Series R

The car which is well known for its uninterrupted road service.

ECONOMY. This car is now doing 23 1/2 miles to the gallon. It weighs 2,375 lbs., therefore, is very easy on tires. When the new taxes come into effect, it will pay less than the heavier cars.

SERVICE. The Hupmobile factory is still supplying parts for cars built in 1909.

DURABILITY. There is in Kelowna a Hupmobile that has gone 150,000 miles and is still in perfect running order.

HILL-CLIMBING ABILITY. Cannot be excelled by any car of equal weight.

ENGINE LUBRICATION. Nothing left to chance; forced feed similar to that on the highest-priced cars.

I will be pleased to give particulars, or demonstration of this Car at any time.

SECOND-HAND CARS FOR SALE

I have Two Second-hand Cars for Sale—One McLaughlin Extra Special, 6-cylinder, practically new, and one 4-cylinder, 5-passenger car, in A-1 condition.

Kelowna Fruit Co., Limited

To the Fruitgrowers of Kelowna District:

Having duly received our certificate of incorporation we take this opportunity to advise all fruitgrowers of this district that we will do a regular packing business in Kelowna during the approaching season.

Mr. J. E. Montague, Manager of the Growers' Sales Agency, Edmonton, Alta., comes to the Company as Manager. He needs no introduction to Kelowna growers as he is well known throughout the Valley. For seven years with the Vernon Fruit Union, at one time assistant Sales Manager of the O. U. G., and now in the brokerage business in Alberta, Mr. Montague knows the fruit business from end to end, and is exceptionally well qualified to serve the growers in his new position.

With our connection among the trade and over 10,000 consumers' accounts we can offer you a service and price you will find hard to duplicate.

Mr. Montague will be in Kelowna in a few days. Do not contract for 1920 until you have talked it over with him.

Yours truly,
KELOWNA FRUIT COMPANY, LIMITED.

Westbank Notes

Considerable building activity is presaged by the numerous shipments of lumber reaching our wharf each week.

Westbank is shortly to be "hooked up" with the metropolis, tentative arrangements having been made with the Telephone Co. for the installation of some twenty rural phones. Speaks well for the rising prosperity and importance of the district!

The Young People's Society held its weekly meeting in the school house on Wednesday evening. "The Life of Livingstone" was the topic of a very interesting reading. The attendance might have been better.

Mr. Washington Brown spent Saturday in Kelowna on business.

A very successful masquerade dance was held by the Westbank Social Club in the B. C. Growers' packing house on Friday evening. The Summerland Novelty Orchestra was in attendance, and "did themselves proud" in the matter of music. Many very excellent costumes were in evidence. The ladies' prize was awarded Mrs. Leonard Featherstone, daughter of Westbank, and Mr. Roland Keith of Summerland, was the favored gentleman at the hands of Judges Thacker and Gore. An enjoyable luncheon was served at midnight, after which dancing continued until the wee sma' hours. A jolly delegation was on hand from Peachland, all of whom voted the affair one of the most enjoyable of the season.

"What did you give your mamma for Christmas?" asked one small boy of another.

"A paper knife," was the reply.

"What did you give yours?"

"Oh," answered the other, "I read in a book about preparing for war in time of peace, so I just bought her a pair of slippers with knit soles."

TENDERS WANTED

Notice is hereby given that the DOMINION CANNERS B. C. LTD. are open to receive tenders for the hauling and disposing of refuse from their two plants during the coming season.

Said tenders must be in before Friday, the 30th April.

39-2c

Provincial Items

Commencing May 1, Kamloops will begin to receive coal from a local mine at Chu Chua.

Building permits issued at Penticton for the first three months of 1920 total in value \$42,231.

Tomato growers at Keremeos have been given a guarantee of \$25 a ton for their crop this season.

The streets of Armstrong are being graded by means of a grading machine hauled by a tractor.

The Salmon Arm Farmers' Exchange marketed over \$400,000 worth of fruit and vegetables last year.

The North Vancouver war memorial will take the form of a hospital, which is estimated to cost \$60,000.

Penticton Board of Trade has decided to affiliate with the Associated Boards of Trade of British Columbia.

The Kamloops Garden Club has obtained a flat rate from the city of \$6.00 for irrigation of a fifty-foot garden lot.

The City of Grand Forks will hold a sale during the month of June of property forfeited for non-payment of taxes.

Dismantling of the Granby mines at Phoenix is now actively in progress, and it is expected that the work will be completed by June 30.

A number of buildings, including a boarding house and residence for officials, are to be erected this year on the Dominion Experimental Farm at Summerland.

The "Penticton Herald" states that fishing in the mountain lakes and streams will open on May 1, and that it is legal to fish in Okanagan Lake all the year round.

Mrs. Van Allen has donated the sum of \$10,000 to build and equip a wing of the new Summerland hospital, in memory of her son, Lieut. Van Allen, R.A.F., killed in Belgium.

A local scheme of daylight saving went into effect at Trail on April 15, the lead being given by the smelter—the largest in Canada—which set its time one hour ahead on that date.

The Vernon Amateur Athletic Association is putting on a membership drive to secure a sum of \$1,500 for the financing of various forms of sport this year, by obtaining 1,500 members at \$1.00 each.

Until last Thursday the "Armstrong Advertiser" and the "Enderby Progress" were run jointly under the editorship of Mr. H. M. Walker, proprietor of the latter paper, but he has now severed his connection with the "Advertiser."

The Government's allotment to Vernon under the Soldiers' Housing Act has been fixed at \$20,000, the fund for this purpose in the hands of the Government now being nearly exhausted. Six applications have been received for loans under the Act.

The farmers of Golden are considering the installation of a creamery, and on their invitation Mr. M. Heron, of Kelowna, attended a meeting recently at the East Kootenay town and gave an encouraging talk, pointing out how the Kelowna creamery had overcome initial difficulties and had become a thorough success.

Penticton's monument to the heroes of the Great War will be an obelisk 27 feet 6 inches high, to cost \$4,500 and to be placed at the corner of Front Street and Westminster Avenue. The base of the pedestal will be 16 feet square. Four lamp standards will be placed at the corners, and the base will be surrounded by an eight-foot concrete walk. Gun-metal tablets on the base of the monument will bear suitable inscriptions and the names of the dead.

The carload of liquor seized at a private dwelling-house in Penticton about a month ago by the municipal police has been returned to its owner, under an order of court issued by Magistrate Guernsey, who ruled that no evidence had been produced to show that the liquor was being kept in the house for the purpose of unlawful sale. It is understood that the owner of the shipment, which is valued at over \$18,000, is applying to the Attorney-General for permission to ship it back to Montreal.

Trail has an ambitious war memorial scheme involving an outlay of \$70,000 to \$75,000 on a building 92x92 feet, two stories and basement. The basement will contain a swimming pool 20x50 feet, fifteen dressing-rooms, three shower baths, a bowling alley 90x12 feet, fuel room, heating plant, store room, etc. The first floor will have a gymnasium 90x50 feet, 24 feet high, with a gallery for spectators; hall and lounge room 32x32 feet, reading room and library 24x32 feet, and secretary's office. The second floor will be divided into fifteen bedrooms. The basement and first floor will be of concrete and the second floor of brick.

A CONCRETE RIBBON ROAD

There is a road in America which is paved with strips of concrete separated by strips of macadam. The road is fifteen feet wide and at the outer edges there are two strips of concrete each thirty inches wide, to take the outer wheels of vehicles. At the centre there is a strip of concrete five feet wide. The intervening spaces are filled with stone and gravel. Not only does this make an economical road, but it tends to distribute the traffic, keeping motor cars on their own side of the road, with a result that there is less danger of accidents and less road wear.

Watch This Scroll Unwind

A few choice Orchards for Sale on the K. L. O. Bench, in Glenmore and in Rutland.

13 ACRES bearing orchard on K. L. O. Bench. \$4,500 will handle deal.

What their handwriting tells—

England's most distinguished novelist writes a distinguished hand—but more to the point—his newest and most distinguished novel is appearing in *Cosmopolitan*. Today, begin "In Chancery" which tells about Soames Forsyte who believes that a wife is part of a man's property.

Miss Hurst's hand shows a disregard for details. Her novel "Star Dust"

does not. In fact, the insight Miss Hurst shows into the heart of Lily Becker—the tragedy of her struggles for self determination—her loveless marriage—all prove that Fannie Hurst knows the essential details that go to make up the joys and the sorrows of life. Get the new *Cosmopolitan* and begin "Star Dust." You'll finish it.

Mr. Kyne's writing shows that he was born and brought up in the great Northwest and knows its people. Better still, his novel "Kindred of the Dust", now appearing in *Cosmopolitan*, gives ample evidence of Peter B. Kyne's knowledge of the great hearted, romance loving, vigorous folk who move in this drama of the passion of youthful hearts.

There are seven *Cosmopolitan* standard short-stories and four great special features in the issue you can buy today!

In appreciation of their Canadian readers, the publishers of *Cosmopolitan* accept Canadian money at par, thereby absorbing any exchange, and they also pay all costs of delivery to local news dealers to enable their readers anywhere in Canada to buy *Cosmopolitan* at the regular price everywhere of 25 cents, as printed on the outside front cover.

THE USE OF NITRO-CULTURES ON FARM

(Experimental Farms Note)

In the report of the Dominion Botanist for the year ending March 31, 1915, he says: "During the last month of the year, viz., December, 1914, it was deemed advisable for this division to prepare nitro-cultures of alfalfa, red clover and peas for distribution to the branch farms."

Such was the genesis of the present system of free distribution of nitro-cultures to farmers, begun in the following season of 1916, and now entering its fifth year.

The branch farms, by their examination and reports, and the ocular demonstration to visitors given in the condition of their leguminous crops, started the demand of the farming public for these cultures, which it is our endeavor to stimulate, guide, and, to the best of our capacity, satisfy.

For the benefit of those farmers, who have not yet studied this question, we propose to briefly explain the term "nitro-culture."

Since the time of the Romans it has been known that the introduction into a crop rotation of a legume—that is, one of the plants belonging to the family Leguminosae, of which the most important members from the farming viewpoint are clovers, peas, beans, and vetches—somehow or other, greatly benefited other subsequent crops. It is only within the last few years that the explanation has been discovered.

The Legumes, as a family in the vegetable kingdom, generally bear on their rootlets small nodules or lumps, of the size of a pin head upwards. Microscopic study has shown that these nodules contain numerous small organisms, known as bacteria. These organisms belong to a particular group with a number of definite strains, each strain apparently confining itself strictly to a particular plant or group of plants. A long series of subsequent experimenting has proved that these bacteria convert the nitrogen of the air into a chemical form which the plant or group of plants can readily assimilate. The association, in short, of plant and bacteria is decidedly beneficial both to the legumes and the soil. The net result, at the end of the season, is a valuable addition of nitrogen to the farmer's field, at, practically, no expense.

Now "nitro-cultures" are simply collections of these bacteria ready bottled. The proper bacteria are isolated from all others, grown on artificial soil, consisting of a jelly made from an oriental seaweed mixed with chemical salts, and then bottled for sending out.

The farmer, when he receives the cultures, breaks up the jelly, shakes it up with some skim-milk or sugared water, and wets his seeds with the resulting liquid. This distributes the bacteria over the seeds, which, when dry, are sown; and, so, plant and bacteria are brought into intimate contact from the very commencement of growth.

Nitro-cultures are prepared by the Division of Botany for alfalfa and sweet clover, red and alsike clovers, and peas, and are put up in bottles containing sufficient bacteria for the treatment of about a bushel (60 lbs.) of seed. Cultures are supplied free to farmers on application to the Division of Botany, Central Experimental Farm, Ottawa, Ontario, on their stating the crop for which culture is required, and the quantity of seed proposed to be treated. Only three such bottles in all, however, can be supplied to any one applicant.

R. A. INGLIS, B.A.,
Assistant Botanist.

SPRAYING

(Experimental Farms Note)

If the fruit grower, vegetable grower, or flower grower does not spray nowadays, he is almost certain to have inferior products in his orchard, small fruit plantation and garden. There are so many injurious insects and diseases which affect a large proportion of the plants he grows that, if they are uncontrolled, there will either be no crop left or else the value of the crop will be very much reduced. There are few of these insects and diseases which cannot be well controlled by using some of the remedies which have been discovered during the past twenty-five or thirty years and which have been well tested by many experiments. Spraying must, however, be thoroughly done if good results are to be obtained. Materials are expensive, and the cost of labor is high, and money will be wasted if the work is improperly done or not done at the right time.

The early sprayings are, as a rule, the most important, and those who contemplate spraying, as all should who have orchards or gardens, should get everything in readiness to begin at the right time as delay may mean much loss. Spray calendars are issued by the Dominion and Provincial Departments of Agriculture, in which several sprayings are recommended to be applied at certain stages in the development of the leaves, flowers and fruit. In the case of fruit trees, the spray should be applied so that every leaf, bud, and fruit will, if possible, receive some of the material, not only on one part of it but as nearly all over as possible. Every leaf, flower and bud or young fruit missed means a possible starting point for disease or insect pests. In the case of vegetables, promptness in the application of a good spray is just as important as with fruits. One does

not need to be convinced of the value of promptness in using poison in controlling the Colorado potato beetle, as the results of the spray are immediately apparent in the death of the "bugs," but more faith is required when dealing with diseases and insects which are not so readily seen but which do much harm, and usually the grower is well rewarded for such faith.

The formula for the mixtures and solutions recommended should be followed as closely as possible. If a man knows the chemical composition of the materials he uses, and has made a study of spraying, he may alter them slightly to meet certain circumstances, but if he knows little about them he should follow closely the instructions given on the Spray Calendar. He should, also, spray as nearly as possible at the time suggested. A delay of a few days may mean practically the loss of the mixture or solution used, as there might be no return for the labor and expense. Write to either the Dominion or Provincial Departments of Agriculture for a Spray Calendar.

W. T. MACOUN,
Dominion Horticulturist.

VANCOUVER ISLAND STAMPS ARE RARE

Philatelists will be interested to learn that Vancouver Island stamps have a definite quotation on the stamp market. So rare are they now that prices are not often quoted.

A five-cent stamp of 1865 was recently sold in London for £74 at an auction of stamps.

This province first issued a stamp in 1861, with a denomination of two and a half pence. This was colored pink. In 1865 came the issue, to which the copy mentioned above belonged, a five and ten-cent issue, both of the same design. In this stamp the head of Queen Victoria was placed to the left in a circle, "Vancouver Island" above, and value in words below. The color of the five-cent stamp was rose, and the ten-cent blue. Both were issued perforated and unperforated.

There was also an issue in 1864 for the colony of British Columbia, before the Union of the Colonies, and in 1868 a fresh issue after union.

KASLO "KOOTENAIAN" BIFFS THE C. P. R.

The Kootenaians rise to remark that it is 85 days since there was a through train, connections or transfer on the Kaslo-Nakusp branch. The slide area is 934 feet in length and some of the slides are nearly five feet deep, others one and two feet. One is between 20 and 30 feet deep and in width is about 50 feet. The track is bare for about 600 of the 900 feet. The C. P. R. sure has some live wires running the Pacific division. If they were not railroading they would be plowing with oxen and cutting grain with sickles. They are speedy.

Extra Years of Easy Riding

Many a bright, shiny-looking bicycle is a gay deceiver! It is merely built to sell. In a few short months it becomes a chipped, rusty-looking object that runs as hard as it looks.

On the other hand, C. C. M. Bicycles retain their looks and continue to run easily for years and years. Many in use for 10 to 20 years are still running well.

C. C. M. Bicycles depreciate more slowly than ordinary bicycles because they are made of better materials.

For example, C. C. M. case-hardened bearings are so hard a file cannot cut them. That is an assurance of extra long years of easy running.

C. C. M. smooth, highly-polished nickel-plating over rust-proof copper and C. C. M. brilliant, waterproof, triple enamelling mean a sparkling, bright finish with years of durability.

When you decide to buy a new model you can always obtain a good allowance for your used C. C. M.

This year's models have the new **Heracles Positive Drive Brake**—the Coaster Brake without a side arm. See them at your local dealer's.

Over 1,000 C.C.M. Service Stations in Canada. Look for this sign.

"The Street Called Straight" by Basil King
An Eminent Author's Production Made by Goldwyn

Showing at the Empress Theatre, next Friday and Saturday

HERE IS A TALE OF WOE

Difficulties of Merchandising Under
Present-Day Conditions

It is not only the instability of prices, with their trend ever upward, that brings grey hairs to the heads of business men these days long before their proper time, but the difficulty of obtaining goods owing to a hundred-and-one circumstances beyond control. The general public has but a faint conception of the wide spread of these obstacles to the speedy transaction of business, and the following letter written by the president of the large publishing house of the Butterick Co. to the manager of a firm in Kamloops, and now reprinted herewith from the "Kamloops Telegram," throws a flood of light on what would seem unwarranted delays in executing an order:

"I have your letter of March 15, registering complaint against the inadequate pattern service you are receiving through our San Francisco office. Your complaint without doubt is justified, but not against our San Francisco office.

"Your March patterns were shipped from New York to San Francisco about our usual date. They went by boat to Galveston and arrived there February 4, but, owing to a strike of freight handlers at Galveston, they were not taken out of the vessel for sixteen days.

"To avoid the Galveston conditions we shipped April goods to San Francisco overland by rail. There were three cars; on March 12 we learned that one of them was lost in the transfer at Chicago and today, March 22, we learn that it did not reach Ogden until March 19. Your goods which were due March 12 will probably not reach you until March 25.

"Now the dock employees of the Morgan Line are on strike here in New York and we do not know when we will be able to get off the May goods for San Francisco. Probably we will send carloads by express.

"Ever since last October we have faced all sorts of difficulties in production and transportation. The trouble started with a strike which lasted seven weeks. Not a printing wheel in our shop turned over. Following that we endeavored to get out four months' goods in three months. It could be done only by working day and night, but—

"No sooner had we straightened away on this line than the influenza struck New York, and by a ruling of the public authorities, our working hours were cut down from eight to six and one-half. This curse lasted a month.

"No sooner had the influenza moved out than a snowstorm, the most impossible to overcome in the history of the city, struck this town. This tied up the city completely. Trucking was at a standstill. For two weeks nothing was brought into our building and nothing was taken out. Every truck that ventured out got stalled. One backfired and was burned up with its contents.

"When the streets were cleared so trucking could begin, the express companies refused to take our shipments at the speed we were delivering them unless we routed them ourselves and delivered them ourselves to their terminals. We put eighteen men to work on that. Two days later the express companies put an embargo on all goods going out of New York. In a few days that was straightened out, when—

"Along came another storm which, in its effect on the states of Vermont, New Hampshire and Maine, was worse than the earlier storm. Printing and pattern paper come from these states. Twenty-eight of our presses are now shut down for lack of paper. The mills could not ship it to us. The Boston & Maine Railway, which serves the three above states, has been digging cars off the tracks with pickaxes. There are 1,000 tons of super-calendered paper due us from one mill in Maine. From Lawrence, Massachusetts, we have had carloads of paper sent us by express. A small town in New Hampshire where our pattern paper is made, was dug out by the railroad and we got paper by express. We hope the railroads will catch up; but during all this time we have been making patterns and have had two crews, a daytime and a night crew filling orders. When we get the

goods on the road, shipped, they have been subject to delays everywhere, by storms, by strikes, by transportation inabilities and inefficiencies, and by acts of the devil.

"Now, today, water traffic is tied up by a longshoremen's strike; this throws extra work onto railroad freight; the freight depots are jammed; trucks stand in line all day long waiting to get to delivery platforms; this has overloaded the express companies and they cannot handle goods offered them; as for parcel post we might as well dump the goods in the river. This is New York today.

"We know that to 'Miss General Public' explanations cannot be offered, but we want you to know we have made every effort to overcome

conditions regardless of what it costs us. And it may be good business for you to inform your sales people.

"We appreciate your feelings over the matter. Imagine our feelings with complaints multiplied a thousandfold, many of which are not expressed in the kindly way you register yours.

"Sincerely yours,
"G. W. WILDER,
"President."

TREATMENT OF POTATO SEED BEFORE PLANTING

Potatoes suffer from a number of diseases, some of which do not affect their edible qualities but impair their keeping, such as Common Scab, Black Scurf and Silvery Scurf, and there are also Late Blight, Dry Rot and Black Leg. Most of these diseases are found in wet climates, but over-irrigation may result in producing one or more of them, and it is important to take measures before planting which will prevent the use of infected seed.

1. Do not use seed from a field known to have been badly attacked by some disease.

2. Discard all cut, broken or bruised tubers.

3. Before cutting, soak the potatoes in either: (a) corrosive sublimate solution—2 ounces in 25 gallons of water—for four hours; or, (b) formalin solution—1 pint in 30 gallons of water—for two hours. Remember that corrosive sublimate is a deadly poison, so do not allow animals to have access to the barrel or tank in which the potatoes are soaking.

4. When cutting tubers, keep a jar of formalin at hand with a spare knife in it, and when a tuber is cut which shows any discoloration, discard it, drop the knife into the jar, and use the other one for the next tuber.

5. Do not plant potatoes in a wet, undrained soil, for such soil furnishes conditions favorable to many diseases.

MOTORIZING THE FARM

THE horse has been declared by Thomas Edison to be the most inefficient machine in the world. In return for the amount of food and care needed, the horse returns less in work than any other machine.

The average team of farm horses costs \$400, a good set of double harness \$100, a wagon without box \$115, making a total of \$615.

A Ford Truck costs \$750 at Ford, Ont. A Fordson Tractor costs \$850 at Dearborn Mich.

The initial cost of motorizing a farm is slightly greater than the cost of a horse outfit, but the lower cost of operation and upkeep of the tractor and truck and the greater amount of work done easily put the horse out of the running.

Government experiments have proved that the cost of feeding a horse is 8.7 cents per working hour.

A team of horses cannot plow more than two acres in a ten-hour day. At 8.7 cents per hour or 17.4 cents per hour for a team, the cost would be \$1.74, or 87 cents an acre. A Fordson Tractor plows on an average of seven acres a day. The cost per acre averages not more than 75 cents per acre for gas and oil. The Fordson does three and a half times as much plowing in a day at a smaller cost per acre.

Suppose you are hauling produce to market or bringing out supplies. If the town is twenty miles away it will take you a whole day to make the return trip

with horses. If you have a heavy load and the weather is hot it will take you two days. If it took you twelve hours, the cost at 17.4 cents an hour for your team would be \$2.09. The average cost of running a Ford Truck, for gas and oil, is 4 1/2 cents a mile or \$1.80 for the forty miles. But with the Ford Truck you can make the return trip in four hours. The truck enables you to make three times as many trips and at a lower cost per trip.

But this is not all. If you motorize your farm you can get up an hour later in the morning. You have no horses to feed, groom or harness. You start work after breakfast.

When dinner is ready you stop at the end of the field, drive your tractor direct to the house, eat your dinner, and rest till it is time to go to work again.

In the afternoon your motor works just as well though the sun is hot and the flies are bad.

And at night when work is over you are through for the day, no horses to rub down, feed or water.

You are always free to leave your farm for picnic or vacation—no worry about horses left behind to be cared for.

Every way you look at it the motor has the advantage over the horse. It means shorter hours on the farm, more work done in less time and at less cost.

FRIDAY AND SATURDAY

Basil King's powerful story—Presented by
REX BEACH

"The Street Called Straight"

With an all-star cast including

NAOMI CHILDERS and MILTON SILLS

The tremendous clash of four strong wills leading to a problem, the only solution of which can mean the wrecking of three lives for the salvage of one, is pictured with the vividness of a lightning bolt, the force and power of a thundering cataract. This tremendous story appeared originally in the Cosmopolitan magazine, and is worth seeing in picture form.

Also a CHESTER OUTING and CHRISTIE COMEDY
Sat. Matinee, 3:30; 10c-25c. Evening, 7:30 and 9: 20c-35c

"The Love Burglar"

Featuring

WALLACE REID

A charming romance of the underworld, based on Charles Lait's famous stage play, "One of Us."

Also "A DIVER'S LAST KISS"

One of those big special comedies with plenty of fun and mirth.

Thurs. Matinee, 3:30; 10c-25c. Evening, 7:30 and 9: 20c-35c

Coming! "GREEN STOCKINGS," by the B. C. University Players. Also "EVERYWOMAN."

I Know All's Well

Editor's Note—Today is the fifth anniversary of the Second Battle of Ypres, the day upon which the Germans first launched the cowardly gas, and the day upon which their great drive to Calais was frustrated by the Canadians. On a four mile frontage our French allies had given way, and a gateway was thus open to the seaboard for the German hordes. The first Canadian division was ordered to fill the gap, and although thousands of our men fell, the enemy never succeeded in penetrating beyond. Western battalions bore the great honors in that memorable battle, for Sir A. Conan Doyle, government historian, in his book, "The Second Battle of Ypres," writes: "Summing up the situation, credit for saving the day must be given to the Canadians; of whom the 10th Battalion (Alberta) and 16th Battalion (British Columbia) must share premier honors."

The subjoined poem is from the pen of Ex-Sergeant J. J. Atherton, author of "Songs of a Sergeant," who is now a resident of Kelowna:

I KNOW ALL'S WELL!

"Fair Ypres was a relic of the soul of other days,
A poet's dream, a wanderer's delight,"—Doyle.

THE setting sun its amber shadows throw
Athwart the fields.....where serried trenches lie,
And blending with red hue, where Poppies grow,
I watch the glorious Heaven's sun-dogs die!

And through the slanting rays of golden glow
A mellifluous Lark's revealed on high,
And, lo, as if its Faith in God to show,
A Vesper Hymn it warbles to the sky.

But ere the rays have tinged yon curfew bell
Gold halos splash the drosses.....row on row;
Then God confides to me: "Tis well! 'Tis well!"
My aching heart replies: "I know; I know!"

And ere the Lark its Vesper Hymn doth cease,
The sunbeams die, with curfew's parting knell.
'Tis then I am encompassed with a Peace;
Sleep on, dear souls, sleep on; "All's well! All's well!"
J. J. ATHERTON.

HIGH SCHOOL NOTES

The programme for sports on May 24 is now determined on. It includes a dash, a mile relay race, and some jumping for the boys; also an egg and spoon race, and some other running for the girls. This means practice! The High School Literary Society will meet next Saturday evening, April 24, at 7:30 sharp. A varied programme will be rendered and refreshments served.

The pupils were delighted last week by the reappearance of our esteemed inspector, Mr. DeLong.

Erastus Keller, an inmate of the Provincial Home at Kamloops, celebrated his ninety-ninth birthday last week, and is still remarkably fit in mind and body.

BOY SCOUTS' COLUMN

Troop First Self Lant
Edited by "Pioneer."

Orders by command for week ending April 24, 1920.

Duties: Orderly patrol for week, Beavers, and also for week following; next for duty, Wolves.

Notice: Friday, the 23rd inst., is St. George's Day and St. George is our Patron Saint. All Scouts will renew their promise on this day.

Parades: The combined troop will parade at the club room on Friday, the 23rd, and Tuesday, the 27th inst. at 7:15 p.m., and the Bugle Band will parade at the Fire Hall on Thursday, the 29th inst., at 7:15 p.m. for practice. An extra practice for the parallel bar squad will be held of which notice will be given.

We are very fortunate in securing the services for the parallel bar squad of Lieut. Andrews, who saw considerable service overseas, latterly with the 27th, City of Winnipeg Batt., C. E. F. He is kindly giving all the time we need to train this squad and so they should provide a most acceptable item for the concert, particularly as the last time we gave an exhibition of parallel bar work was in 1916. Mr. Thompson and Miss Winnie Jones have commenced the rehearsals for the songs, and that ensures the success of that part of the programme. Mrs. Calder is also again kindly taking the rehearsals for the play, and the Bugle Band is still in the capable hands of Mr. Fred Gore.

The Local Association met on Thursday evening last and two important appointments were made to the Cubs and Scouts respectively. As previously reported, Mr. Bartholomew, who has been acting as Cubmaster since Mr. Gordon's resignation, has had to resign, although his services may be available again in the fall of the year, so we are very glad that we have been able to enlist in his place Lieut. Wedge, late of the R. A. F., who also saw considerable service overseas. He was appointed acting Cubmaster by the Local Association, and we wish him and the Pack the best of luck. It was also decided that Mr. Bartholomew should be awarded a Thanks Badge in appreciation of his services, and which we might add he well deserves. Then for the troop came well-earned promotions to two of our remaining three "old originals" of 1912 in the persons of T. L. Richard Parkinson and P. L. Leonard DuMoulin, both of whom were appointed Acting Assistant Scoutmasters. Under the rules of our organization all warrant officers must act under their appointments for three months, before having them confirmed. These additional officers should assist the working of the troop very much and if we can now have the energetic support of every leader, Second and Scout in the troop, great progress should be in store for us.

These promotions left vacancies in the troop and so at the Court of Honor on Saturday last honorable and lengthy service in the troop was again recognized in the appointment of the other "old original" of 1912, P. L. John Groves, to the position of Troop Leader, which office he will hold together with that of Patrol Leader of the Wolves. Seconds Ball, Butler, Hunter and Small were promoted to be Patrol Leaders of the Otters, Owls, Beavers and Cougars respectively, and Scouts Clarence, Latta, H. Mantle and Neish were promoted to be Seconds of the Otters, Beavers, Wolves and Eagles respectively. Recruit D. Balsillie passed his Tenderfoot Tests on Friday the 17th inst., and was posted to the Owl Patrol.

rol, and P. L. Carl McKenzie and Scout J. Aitken being out of town, were given leave of absence. This leaves four of our six Patrols under their full strength of seven and we have therefore now room for seven recruits. It is not likely that after the first of next month we shall take on any more recruits until after camp, so if there are any local boys who would like to join the troop, their applications should be made immediately.

The purchase of Cedar Creek site is going ahead and we are now going to enlist the services of a surveyor to find out the acreage our promised money will buy. The more money we have the better site we can have, so if there are any more of our friends who would like to do a big good turn to the growing boyhood of Kelowna for all time, and at the same time secure a beautiful camp site for themselves during their lifetime, now is the moment. They should get into touch with any of the Scout officers or either Mr. Mantle or Mr. Rowcliffe of the special committee who have the matter in hand.

RHEUMATIC PAINS

Quickly Eased by Penetrating
Hamlin's Wizard Oil

A safe and harmless preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Hamlin's Wizard Oil. It penetrates quickly, drives out soreness, and limbers up stiff aching joints and muscles. You will find almost daily uses for it in cases of sudden mishaps or accidents such as sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for earache, toothache, croup and colic.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whisks, pleasant little pink pills, 30 cents. Guaranteed.

WHY NOT LOAD CARS TO CAPACITY?

The haulage capacity of a locomotive is not based on the number of cars it can handle but on the number of tons. By the more intensive loading of cars there will be a reduction in the cars to be hauled, which means a greater number of cars for distribution to the various shippers throughout the country.

Two or three years ago the public was asked to co-operate with the railways in an endeavor to prevent car shortage by the heavier loading of cars, and shippers everywhere responded to this special appeal, with the result that in the year 1918 the average load per car on the Canadian Pacific was 26.54 tons, the highest in the history of the company, but during the past year the results have not been as satisfactory. In 1919 the average load per car on the Canadian Pacific Railway was 24.87 tons, a decrease of 1.67 tons per car, which indicates that some shippers have lost their interest in this most important matter, and the railway is again appealing to the public to co-operate with it in the heavier loading of cars with a view of decreasing the car shortage which now exists all over the country and which will be more aggravated in the course of the next few months. This shortage can be greatly reduced if shippers will make better use of car space.

Load all cars to their full carrying or cubical capacity so that the maximum will be obtained.

Load freight requiring refrigeration to safe carrying capacity for the commodity loaded, utilizing all space possible.

Load freight requiring ventilation to safe carrying capacity for the commodity loaded, but understand that this class of freight can be loaded much heavier than freight requiring refrigeration, although not always to full visible capacity.

The Canadian Pacific Railway, realizing the importance of safe transportation of high-class perishables, such as fruit, vegetables, etc., during the past few years has expended large sums in the construction or enlarging of ice houses at various terminal points and equipping them with up-to-date machinery so as to enable the prompt and proper icing of such shipments. Likewise it has purchased during the past three years 5,000 charcoal heaters in order to adequately protect such shipments requiring heating during the cold weather. And it has built over 1,000 new refrigerator cars and has under construction at the present time 500 additional refrigerator cars. In the construction of these cars special attention has been given with a view of making the brine tank refrigerator car efficient for shipment of fruit and vegetables. In this connection the Dominion Government in a bulletin issued some time ago made the following remarks:

"The Canadian Pacific Railway has been making progress in building improved refrigerator cars of the brine tank type, the most notable improvement being in the permanent raised floor racks that are slatted and allow a five-inch space beneath the load to allow cold air to circulate from the ends toward the centre of the car. These cars also have vents in the tanks so that shipments may be sent under ventilation when so desired."

Experiments carried on by the railway company have demonstrated that this is the most desirable car for the transportation of all high-class perishable commodities, and in the construction of the 500 cars now being built special attention is being given to ventilation features.

This Milk is Good

Pacific Milk has found its place in many new homes during the year.

In many instances it has been tried first because there was no fresh milk in the house. The results were so good it gradually worked itself into all the household cooking and baking.

Comrades of the Last Post

Publication of the roll of those residents of Kelowna who fell in the Great War, in our issue of April 8, has resulted in the addition of one name, that of William Allan, who left here in 1915, joined the 13th C. M. R., transferring later to the Princess Pats, and died gloriously on Vimy Ridge. Our thanks are due to Mr. Wm. McTavish, of the K. L. O. Bench, for the information.

Three minor corrections in the initials and spelling of names have also been sent in, and the list, as revised, is published once more herewith, and will not appear again unless further additions or corrections are received.

An exhibition of historical pictures will be held by the Jack McMillan Chapter, I. O. D. E., in Wesley Hall, on Saturday, May 1. The exhibition will be opened by Mr. J. W. Jones, M.L.A., at 3 p.m. Admission: 10 cents. Tea will be served. The pictures will also be exhibited in the same place on May 4, 5 and 6, in the afternoon. Come, and bring the children. 40-2c

A TRIBUTE OF THANKS
The relatives of Mr. and Mrs. W. J. Austin wish to express their appreciation and heart-felt gratitude to those friends who were so kind to both Mr. and Mrs. Austin during Mr. Austin's last illness and after his death. It has been a great source of comfort to the relatives in the East to know that kind friends in the West were doing all that could be done. 40-1c

Okanagan Mission Notes

Mrs. Sweney returned from a visit to Vancouver during the middle of last week. Mr. Roy Sweney, who has been in Hospital in Vancouver, we are glad to hear is very much better. He has gone to Halcyon Hot Springs for three or four weeks.

A number of fruit trees, also raspberry and strawberry plants have arrived for various people in this district.

"Frisco" goes merrily on painting the local store here. We trust that the wet weather (in this instance) will keep off so that this job may be completed before the apple picking season commences.

A petition was recently signed here by everybody, including all the very best people, asking the C. P. R. to allow the S.S. Okanagan to renew its usual service of calling here once weekly—Wednesday afternoons. A reply has been received from the C. P. R. an epitome of which is—as soon as Okanagan Mission business warrants it (otherwise as soon as we obtain a place on the map)—this will be done.

Quite a number of young pheasants have been seen around this district lately. People owning dogs—or other wild animals—we hope will keep them under proper control.

A Page-wire fence is being placed around the school and it looks very pretty. Nobody is infallible but we would like to raise this point: Is not the fence on the north side overlapping the surveyed government road which we hope to have graded and completed—some day?

Local and Personal

Miss Davies left on Wednesday for Yarmouth, N. S.

Mr. and Mrs. H. E. Patterson went to Enderby on Tuesday.

Dr. T. Gaddes returned to Westlock, Alberta, on Saturday.

Lieut.-Col. W. H. Moodie returned from Ashcroft on Saturday.

Mr. R. Haldane was a passenger to Vancouver on Monday.

Mrs. J. W. B. Browne was a passenger to Vancouver on Friday.

Mr. and Mrs. H. S. Welch and family went to Lacombe, Alberta, on Friday.

Mrs. Skinner, of Qu'Appelle, Sask., is visiting Mrs. Cameron, Strathcona Avenue.

Mr. and Mrs. John Mallet-Paret returned on Saturday from a bridal trip to the Coast.

Miss Gertrude Perry, who had been visiting friends here, left for England on Friday.

Mr. R. M. Hart, of East Kelowna, is paying a visit to the Coast, leaving on Tuesday's boat.

Mr. W. A. Hunter went to Ashcroft on Monday, on his way to 100-Mile House, on the Cariboo road.

Ven. Archdeacon Greene was a visitor to Penticton on Monday and Tuesday, returning Wednesday morning.

Lieut.-Col. Edgett, who was in attendance at the G. W. V. A. meeting on Monday night, returned to Vernon on Tuesday.

Major Dyce, an officer of the regular army, left for England on Friday with his mother and his son, after spending the winter months here.

Mrs. D. W. Crowley, who recently underwent an operation in the Hospital, is progressing very favorably, and expects to return home soon.

Mrs. P. T. Butchart, of Edmonton, and Mrs. G. N. Butchart, of Hibbing, Minn., are visiting Mr. and Mrs. J. F. Fumerton. They are on their way home, after spending the winter in California.

Mr. Wm. Haug has assumed as partner in his coal and building supplies business his son Roy, who is a returned soldier, and the firm is now styled "Wm. Haug & Son." It is good to see these native sons settling down in their home town after doing their bit overseas.

Mr. J. R. Campbell has been appointed local service station agent for the celebrated Canada Cycle and Motor bicycles, a full line of which he handles. He has already sold twenty-two bicycles this spring, and thirteen more arrived on Tuesday, so that the motor car has not by any means displaced the more humble but exceedingly necessary two-wheeler propelled by human power.

Stirling & Pitcairn Ltd., have won their appeal in the Provincial Court of Appeal against a decision of the Supreme Court given in favor of the plaintiff in the action brought against them by Mr. John Kidston, of Coldstream. The Court of Appeal has now unanimously reversed the decision of the lower court, and has held that Mr. Kidston was not at liberty to break his contract with the firm, and costs have been given against him.

Members of the Rebekah Lodge at the close of the lodge meeting last Friday night presented Mrs. J. M. Johnston with a Community silver berry spoon and silver meat fork. The presentation was made by Mr. J. H. Glass. Mrs. Johnston is leaving on an extended holiday trip and may eventually make her home in Kelowna. She has been for several years in the local government telegraph office in Penticton and is a prominent Rebekah member. "Penticton Herald," April 15.

Many old friends were delighted to welcome back to Kelowna on Monday Mr. R. Whillis, after an absence of five years on military service. He brought with him a winsome bride and will make his home here, associating himself once more with Mr. N. D. McTavish in financial and insurance business. He enlisted in the 48th Battalion along with a contingent of Fire Brigade boys, and left here on March 1, 1915. He went to France with the battalion and served with it until May, 1917, when he took an Imperial commission, joining the Durham Light Infantry. He was very badly wounded on May 27, 1918, while in action near Rheims, and has been in hospital most of the time since, undergoing several operations, the latest one in December last. In spite of it all and a permanently impaired and almost useless left arm, Mr. Whillis is cheery as ever, and it is a wholesome lesson to grouches to see how a man can pass through hell and bear the scars of it for the rest of his life and yet keep smiling.

Church Notes

The quarterly Communion service will be observed at the United Church on Sunday morning next. A number of new members will be received at this service. * * *

The monthly Church of England service will be held at Rutland, on Sunday next, at 3 o'clock in the afternoon. * * *

The services of Rev. Dr. Spencer have been secured by the Baptist Church for the summer months, and he will arrive in Kelowna in time to officiate at the usual hours on Sunday, May 2. Dr. Spencer, who is now at Fort William, Ont., comes to Kelowna with high recommendations from the Eastern Board. * * *

Mr. and Mrs. Fred Wigglesworth have recently arrived in the city from Chilliwack, where Mr. Wigglesworth was organist and choirmaster in Cooke's Presbyterian Church. He has assumed a similar position in the United Church in this city, officiating last Sunday for the first time and making a splendid impression with both choir and congregation.

New Millinery of Exceptional Value

Many Model Hats are now being shown in our Millinery Section which Miss Pughe managed to purchase while on her trip to the Coast last week. These new models are distinctive in style and are the latest productions from the Eastern markets.

Look over these new Hats.

New Voiles

Many new designs in Fancy Voiles are now here; the colorings are exceptionally good and materials of the finest weave.

Prices from

85c. to \$1.95 per yd.

CAN'T you see yourself in this dainty dress? What could be neater or smarter? It is just one of the 600 beautiful fashions in

The Fashion Book for Summer

which should be in every well-dressed woman's home.

Listings wanted of City and Farm properties. Office hours: 9 to 6. Saturdays, 9 to 10 p.m.

Glenmore Notes

Mrs. Rumble, who has been the guest of Mrs. W. J. Rankin, returned home on Friday morning.

At last the long looked for day has arrived, when our school children are able to obtain water for drinking, etc. This has only been made possible by the installation of the Smith Sanitary Bubbler Fountain at the school.

A new flag floats in the school grounds this week.

Mr. Percy Rankin returned from California on Monday.

'Sunday is the Bachelors' at-home day. One is then privileged to sample their cooking. Those who enjoyed such hospitality on Sunday, speak highly of their success in this direction.

Horses ranging round are proving a great nuisance to ranchers who have to be continually chasing them, even at midnight. Fences are no bar to them.

Replanting is going ahead on the Central Okanagan Land's orchards.

Ranchers enjoyed the privilege of filling up water tanks this week.

The dance arranged by the Glenmore Athletic Association on Thursday last, was a great success financially and in the number attending. A large number motored out from town and Glenmore was well represented.

From divers sources since, one hears expressions of the good time enjoyed. The decorations were in the Club colors, blue and white, interspersed with flags. The music was well in keeping with the size of room, and the dances went with a good swing. Refreshments were served, and upused cakes were auctioned off at the close of the

dance, thus adding considerably to the funds. The G. A. A. wish to express their thanks to all who assisted in any way towards the success of the evening.

To those who are planning a visit to our valley, we say: "Come when the blossoms are out." Buds are only waiting for a few warm days to blossom out in all their glory.

Rumor says that a happy event is shortly to take place in which one of our bachelors will be one of the principals.

G. W. V. A. NOTES

The Provincial Convention at Fernie has been postponed until June 5 and 6.

Copies of the resolutions adopted at Montreal will be sent to all members in good standing.

The Dominion Convention adopted our resolution re the leasing or ownership of lands by Orientals.

A whist and cribbage match with the Sons of England will take place next Saturday at the Club.

We have to thank the local Red Cross Society, through Mrs. J. W. Jones, for the gift of a refrigerator, which is much appreciated.

KILBANE FINDS ALVIE MILLER EASY PICKING

LOS ANGELES, April 22.—Lorain O. Kilbane knocked out Alvie Miller in the seventh round of a ten-round bout here last night. The champion toyed with Miller for two rounds, knocked him down nine times in the third, then in the seventh flashed a left and a right to him in lightning speed, and it was all over.

Okanagan Centre Notes

Mr. Russell Venables, absent for a few days, has returned with his English bride. We wish them a happy wedded life in the sunny Okanagan.

Mrs. W. W. Robinson came in on yesterday's boat to join her husband and son Leonard, who preceded her a few days to the old home better known as "The Halfway House," on the old Vernon road, from which they have been absent for eight years. The Centre and Woods Lake people give them an unanimous welcome home.

Mr. Pixton, agent at the Centre for the B. C. Nurseries, is busy delivering trees to his patrons, who are many.

Mr. Higglet spent Sunday at Grand View Ranch.

Mrs. Brixton visited at Mrs. Purves' on Tuesday.

Mr. Gibbons, general manager for the Valley Land Co., has come with his family to live at the Centre. We extend our friendly assurances.

Miss Campbell-Brown has resumed her duties as teacher at the Centre, after a four months' visit to Scotland and England.

Mr. Goldie, of the Rainbow Ranch, is having his house remodelled, which adds more beauty to the Centre.

Mrs. Rheams is repairing the Hotel Westbury, which will be a very inviting abode for pleasure and comfort seekers this coming season.

Mr. and Mrs. Maile have come to reside at the Centre for the summer. Mrs. Macfarlane spent a pleasant Easter week with Mrs. Nuckie at Kelowna.

Mrs. Tom Waters, of Penticton, is a visitor at Irrawarra Ranch.

Mrs. Downing, of Revelstoke, is a visitor at the Centre.

Mr. and Mrs. P. W. Pixton visited at Mrs. Sam Copeland's Sunday afternoon.

Mr. Kennard, a veteran who sold his orchard recently on the west side of the lake, has purchased town property at the Centre.

We are pleased to learn that Mrs. W. Mackay, who has been ill for such a long time, is somewhat recovered.

Mr. Jas. Goldie, of the Rainbow, lost a valuable horse last week.

Mr. F. C. Copeland sold one of his fine grey horses last week.

LONDON, April 22.—Cosac won the \$10,000 City and Suburban at Epsom yesterday. Square Measure was second and Furious third. vicero, the King's entry, failed to secure a place.

SASKATCHEWAN LEADS

According to population, the Province of Saskatchewan has the greatest number of motor vehicles in Canada.

The following list shows the number of persons to each car in the nine provinces, compiled from the latest statistics recorded:

Saskatchewan, per capita	13.4
Alberta, per capita	17.1
Manitoba, per capita	18.2
Ontario, per capita	20.2
British Columbia, per capita	37.5
New Brunswick, per capita	45.2
Nova Scotia, per capita	52.5
Quebec, per capita	66.5
Prince Edward Island, per capita	82.8

G. W. Cunningham

40-1c AUCTIONEER

Woods Lake Notes

Mr. and Mrs. Pratt and son are expected from Ontario this week. They will stay for some time with Mr. and Mrs. D. Clark, uncle and aunt of Mrs. Pratt. Mr. Pratt has been suffering from nerve trouble, the result of war service. The climate and outdoor life should act as a tonic.

Activity along the Centre Road is very marked just now. Mr. Arnold has his new orchard land in fine shape and planting of young apple trees is well in hand. Mr. Cornish will soon have his new place fixed. Quite a number of owners are also taking up residence on their properties. It is very gratifying to see such an influx and speaks well for the future of the district.

A new construction camp is being erected on the east side of Duck Lake. The advance on Kelowna will begin forthwith.

Rev. Mr. Cassidy, we are glad to say, is better in health after treatment in Vancouver, and was able to get down to Woods Lake for Sunday School, last week, but did not take a service. He will officiate, however, on Sunday week. Now that he has acquired a car, his journeys from Oyama will be much more comfortable and expeditious; unless—But why prophesy trouble?

Ladies are now admitted to the membership of the United Farmers of B. C. Their presence at future meetings of our branch is looked for.

The McKenzie Co., Ltd.**A Trim, "Trig" Fit**

is not merely the accident of finding a suit "your size." A really smart fit comprises more than that.

It means to secure a Suit that not only matches the lines of your own figure, but that rounds out the lines, "melts" into them so to speak — gives you that smart, well-groomed air that is one of the distinguishing features of the superb models shown in

Bengard
Clothes

Suits for the young man of today—each a masterpiece of the Canadian tailor's art—in snappy cut styles and new fabrics.

Offered you at prices that have no equal anywhere — because they're Canadian-made—bought in the biggest range you'll find in the West—sold just as you and your big brothers got 'em before the War.

A host of patterns in all the latest weaves. Smart button styles, high roll lapels—new length coats with the full flare skirts—waistlines that set off your figure. They wear — because they're made right.

These prices will stand comparison anywhere—
